Healthcare IT M&A Activity Will Grow in 2007, MidMarket Capital Reports

Source [MidMarket Capital, Inc.](#)

Published Date 1/18/2007

This year will likely surpass 2006 in the overall number of mergers and acquisitions in the healthcare information technology industry, according to MidMarket Capital of Chicago. The investment banking firm also projects that three of the hottest sectors will be wellness and disease management programs, surge planning and emergency preparedness systems and products supporting consumer driven health. ...
